13. ABSTRACT (Maximum 200 words) The U.S. Army Corps of Engineers (USACE) has tasked ICF Kaiser Engineers (ICF KE) to perform investigative tasks for sites previously identified at Fort Totten. Fort Totten is located in northeast Queens County, Long Island, New York. The purpose of this work is to support the eventual excessing and transfer of property in accordance with the 1995 Base Realignment and Closure Program (BRAC). Work for this assignment was performed under Contract No. DACA31-95-D-0083, Delivery Order 0006. The work comprised installation and sampling of 11 groundwater monitoring wells (along with a sample from one existing well), completion and sampling of 15 soil borings, collection of 14 shallow or surficial soil samples and collection of 14 sediment samples. Unexploded ordnance clearance was provided for intrusive operations in predetermined areas of Fort Totten. No UXO was encountered during field operations.
